Cascadian  
FROZEN  
FRUITS

**\$2.29**  
10 oz

*Cascadian is one of those large companies, that got bought by an even larger company, that still manages to honor its founding values. And don't worry that it's frozen. For fruit out of season, you can make a strong case -- on both nutrition and sustainability grounds -- that frozen beats fresh.*

- Lucky Day plant-based ice creams
- ...and we FINALLY jumped on the Graza olive oil bandwagon
